

THIRSTY?

Seattle's finest is looking to add **part-time and full-time Veterinarians** to our **Emergency Department**.

If you are fun to work with, have a passion for patient and client care, and are driven by high quality medicine, we'd be delighted to have you join our team.

Owned by veterinarians, Animal Medical Center of Seattle is a 24-hour emergency and specialty veterinary hospital providing internal medicine, oncology and 24 hour emergency and critical care for pets in the northern Seattle area.

Now, thanks to our unyielding commitment to our referral base and patient/client care, we are growing! We are looking to add part-time and full-time Emergency Veterinarians to our family.

Of course if you love nature, Seattle is the place for you. And if the wide outdoors is not entirely your thing, it's famous for a lifestyle and culture that has placed it in the top ten most livable cities in the US. (Did we mention the coffee?)

*Owned by veterinarians.
Driven by compassion and care.*

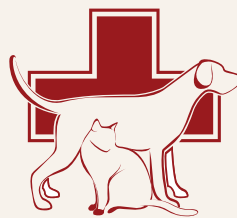

CT SCANNER ■ ULTRASOUND ■ ENDOSCOPY ■ FLUOROSCOPY
