

Animal Medical Center of Seattle Proudly Offers

LUNCH AND LEARN!

What Would You Like to Learn About?

AMCS offers Lunch and Learn opportunities to our referral community for free! All that we ask in return is to think of us when you refer for emergency or specialty care and consider adding us to your after-hours voicemail/website.

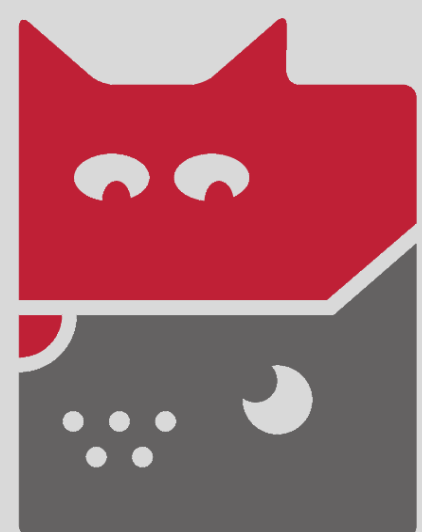

Lunch is on us!

Our ER doctors, specialists, and technicians have a wide array of different topics to present, such as pain management, updates on treatment options for cancer and Interventional medicine.

Contact us today and let us know what you'd like to learn about!

Please Contact Jina Smith for more information or to schedule a Lunch & Learn at 206-204-3373 or email at JSmith@AMCSVet.com
